- 2.51-4.0 units/acre
- Neighborhood Mixed Use Center
- Community Mixed Use Center
- Regional Mixed Use
- Refer to Intersection Map Details
- Recreation/Linear Trails
- Rural Conservation Area
- Pocahontas State Park

NOTES

The Southern and Western Area Plan

Note 1:

Lake Chesdin Watershed

This area warrants special protections and careful development to maintain the quality of this major source of drinking water.

Note 3:

Rural Conservation

Activities are limited primarily to agricultural and forestall uses with isolated single family residences permitted on lots larger than 5 acres. Planned development is to be deferred for 20 years unless adequate provision is made earlier for public water and sewer, road improvements and other public facilities. Growth here will be encouraged after the population reaches 50,000 persons.

General Note

With in all land use categories, zoning requests should be analyzed to determine the impacts of individual uses on existing and anticipated area development. If compatibility problems are anticipated, they should be addressed during the zoning process or by requesting a less intense classification.

Upper Swift Creek Plan

Single Family Residential 2.0 Units/Acre or less

Note 1:

Projects that drain away from Swift Creek Reservoir may be appropriate for densities of up to 2.2 dwellings per acre.

The notes geographies are generalized.
For more information, please contact
Chesterfield County Planning Department.

The Code of Virginia states "the comprehensive plan shall be general in nature, in that it shall designate the general or approximate location, character, and extent of each feature shown on the plan." Recommended land use boundaries shown here should therefore be considered generalized. Zoning change recommendations based on this plan may take into consideration other factors not addressed in this plan. These boundaries and the future development potential of any property based on the recommendations of this plan should be confirmed with the Chesterfield County Planning Department. The maps contained in the comprehensive plan are dynamic and in a continuing state of review and upgrade.
